CORRECT CODING FOR PRIOR AUTHORIZATION

PRIOR AUTHORIZATION WILL BE GRANTED AT THE CPT CODE LEVEL

• If a claim is submitted that contains CPT codes that were not authorized, the services will be denied.

• If additional procedures are performed during the procedure, the provider **must** contact the health plan to update the authorization in order to avoid a claim denial.

• It is recommended that this be done within 72 hours of the procedure. However, it **must** be done prior to claim submission or the claim will deny.

• Ambetter will update authorizations but will **not** retro-authorize services.
  - The claim will deny for lack of authorization.
  - If there are extenuating circumstances that led to the lack of authorization, the claim may be appealed.
